

Y SERIES MANUAL HAND CRANK HOSE REELS- 25MM

The new Retracta Y Series hose reel range has been introduced to meet the demands of extreme environments where wash down hose reels are used. Designed with safety features from the ground up, Y Series reels are made from high quality materials providing the ultimate durability.

FEATURES AND BENEFITS

- Manually operated safety system to prevent the handle rotating during hose unwinding
- Foldable handle to prevent unwanted catching
- Adjustable clutch allows the rotation speed of the drum to be slowed
- Stainless steel swivel with high quality seals for the ultimate durability
