

UREA/DEF Metered Auto Nozzle

L-PANM

The Lubemate Automatic Urea/DEF Nozzle combines precision, durability and user-friendly design for reliable dispensing. This nozzle ensures efficient and seamless Urea/DEF transfer while its auto shut-off feature prevents overfills, offering enhanced safety during refilling operations. The integrated digital flowmeter provides accurate and real-time measurements, making it easier to track and manage Urea/DEF usage. The nozzle features an auto-sleep function that activates after 40 seconds of inactivity, extending battery life.
